"Thank you for giving me the opportunity to apply for this position. I would describe myself as a hard-working, conscientious, positive, and industrious person who is keen to start work in a productive team environment.

During my studies, I learned the importance of being disciplined, completing my work on time and to a high standard, and supporting other students in their work. Outside of work I keep myself fit and active and I have a passion for self-development through reading non-fiction books and studying online training courses.
